

Example COVID-19 Custom Fields

Here is an example of four custom fields that have been recommended by the CDC for prevention of COVID-19. We can set a final custom kiosk message for patients based on their answers to these questions, along with a task for your staff. We can also send a text message to the patient with your verbiage based on the answers to these questions.

Question 1: Did you travel?

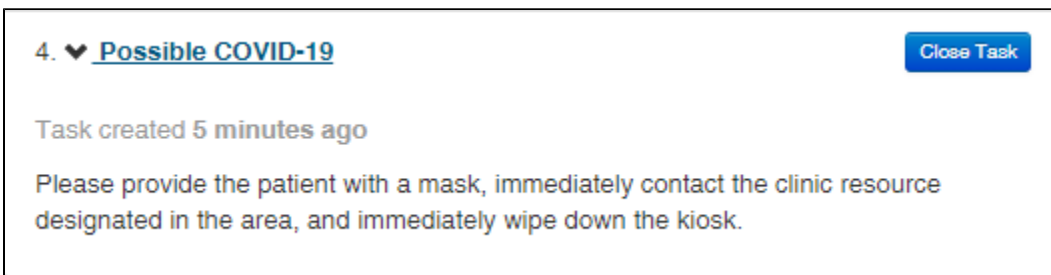

This custom field is shown to all patients on every visit.

Have you traveled to China, Iran or Europe in the last 30 days?

Yes No

If **Yes**, the patient will be told to go to the front desk, and the staff will see the following task:

4. [Possible COVID-19](#) Close Task

Task created 5 minutes ago

Please provide the patient with a mask, immediately contact the clinic resource designated in the area, and immediately wipe down the kiosk.

If **No**, the patient will see Questions 2, 3, and 4.

Question 2:

Have you been in contact with someone who has traveled to China, Iran or Europe in the last 30 days who is now ill?

Yes

No

Question 3:

Have you been in contact with anyone with confirmed COVID-19 in the last 14 days?

Yes

No

Question 4:

Have you had any of these symptoms in the last 14 days?

Fever greater
than 100

Difficulty
Breathing

Cough

None

If **Yes** to questions 2, 3, or 4, the patient will be told to go to the front desk, and the staff will see the following task:

4. [Possible COVID-19](#)

Close Task

Task created 5 minutes ago

Please provide the patient with a mask, immediately contact the clinic resource designated in the area, and immediately wipe down the kiosk.
