

# Release Notes 2018-05-09

## New Features and System Updates

### Mobile Text Messaging in Spanish

- Mobile text messages, Notification and Reminders, can be sent in Spanish.
- Spanish text messages will be sent if the patient's last kiosk check-in was completed in Spanish.

### SRS API Support

- Use the SRS API to update the following consents on the patient record in SRS:
  - Immunization History
  - Medication History
  - SRS Communicator

### iPP350 EMV Payment Device Support at the Kiosk

The kiosk can use the Ingenico iPP350 EMV card reader with the following payment processors:

- Retriever Medical
- FreedomPay

Please contact Stephanie Servy at [sservy@clearwaveinc.com](mailto:sservy@clearwaveinc.com) with any questions, feedback or to enable any new features.

### Scope of Release

 The release will impact the Kiosk and Provider Portal. The actual release should have minimal effect on user workflow.
