

Release Notes 2018-01-23

New Features and System Updates

- **The Printable Custom Forms modifications:**
 - The information is now reformatted in 3 columns rather than vertical alignment with large amounts of white space.
 - The Printable Custom Forms can be customized to exclude the following data: Field Name, Question Text, Patient Date Source, Visit Information Box, Patient Signature.
- **Custom text line available at the bottom of the Driver's License screen**
- **Telecommunication Code system support:**
 - Integration, user in the portal, and patient at the kiosk can set a telecommunication code for primary and secondary phone numbers. The telecommunication codes available for use can be set by the administrator in the Provider Portal.
- **The AdvancedMD provider id used in the resource sync and Appointment Query is the ProfileUID.**
 - This supports the payment posting after the patient pays at the kiosk.

Payer Updates

- Adjustments to TennCare to show proper inactive response when there is another payer coverage.
- Adjustments to Medical Mutual of OH to ignore Dental benefits when pulling medical deductible.
- Payer Regence of OR specialist copay parsing updates.

Please contact Stephanie Servy at sservy@clearwaveinc.com with any questions, feedback or to enable any new features.

Scope of Release

The release will impact the Kiosk and Provider Portal. The actual release should have minimal effect on user workflow.
