

Old Clearwave User's Guide

About the Clearwave User's Guide

This guide is an outdated version of our Clearwave dashboard - we are currently working on upgrading our instructions and will be rolling these out in the new year.

This guide covers features and functions that are available to Clearwave users and administrators.

For information on administering your Clearwave site, including customizing your kiosks, refer to the [New Clearwave Administrator's Guide](#).

Table of Contents
